PURE COLLECTION

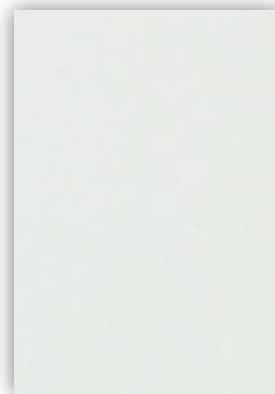

The Symbol of Purity and Elegance

At the edge of the sea, countless grains of sand dance with the wind, reflecting the enchantment of nature. Each grain of sand is a symbol of purity and elegance, shining like a pearl of nature.

The PURE Collection draws inspiration from this magnificent scenery and incorporates the pure texture of nature. With every touch, the pure beauty captivates you, and in each stone, you feel the beginning of a fairy tale.

As our gaze shifts from the brilliance of the stars to the timeless echoes of history, the Starlight Collection concludes its story. The ethereal beauty of the night sky has illuminated our path, guiding us toward a new chapter. The journey now takes us from the celestial wonder of Starlight to the profound depths of the Antique Collection, where each piece whispers the secrets of ancient times.

ANTIQUE COLLECTION

Feel the Echoes of Ancient Times

An ancient city lost in the depths of the past stands as a silent witness to time. The castle walls, ancient caves, and stones carry the traces of history.

The ANTIQUE Collection draws inspiration from the mystical atmosphere of these ancient cities. Each surface tells a story from the ages, and with every touch, the secrets of the past are revealed.

Though this chapter closes, the spirit of GUSTO remains—an eternal bridge between the stillness of the peaks and the vitality of nature, reminding you to embrace balance with every step forward.

COANTE
ADD SPARKLE TO YOUR HOME.

IT ADDS VALUE WITH ITS ENVIRONMENTALLY AND SOCIALLY-RESPONSIBLE AND NATURE-FRIENDLY APPROACH.

We recycle our water and minimize water consumption.

We generate our electricity with solar panels installed at our factories.

We optimize distribution and logistics processes by establishing logistics centers for distributors.

We develop eco-friendly products to reduce chemical usage.

With our non-disposable products, we contribute to sustainability goals by minimizing environmental waste.

Coante is a MINDFUL brand.

We care for the people and for the environment. We take notice of our collective responsibilities and respect diversity.

We are guided by a sense of responsibility to add value to people and the environment while leading our brand into the future.

In 2022, we further enhanced our green credentials by implementing 4MW additional solar capacity at Ermaş Ula and Coante Quartz Surfaces facilities through a total investment of USD 3.6mln. This investment will generate 8.76mln kW electricity through solar energy and will meet more than half of the energy need of Coante Quartz Surfaces manufacturing facilities.

To use natural resources responsibly, our manufacturing is based on a closed system water treatment facility. All water used in manufacturing is treated and made available for 100% re-use.

In line with our efforts to reduce the carbon footprint of our sales and distribution network, we continue to increase the number of logistics points.

We prioritise efficiency. Our efficiency efforts so far have yielded immense savings: 788 m3 of natural gas and 616k kWh of electricity were saved through the efficiency measures.

2022 has been a very good year with our green initiatives hitting the target 100%.

DRIVING STRENGTH FROM R&D FOR A CLEAN FUTURE

We continue to work with Muğla Sıtkı Koçman University and İnönü University within the TÜBİTAK 1505 University-Industry Cooperation Program to lower the silica levels used in production and enhance efficiency in use of natural minerals, a critically important raw material in our production.

WE ARE PROUD OF THE GREEN ACCLAIMS WE HAVE BEEN AWARDED

We were awarded 'The Most Successful Operation' in the 'Environmentally Responsible Businesses' category. Thanks to its continued success in 'Energy Efficiency Projects' category, Coante was recently named as winner of the 'Efficiency Prize' at the Energy Generating Production Facilities Summit. At Ermaş Group, we are proud of our continued work adding value to our country and the world through our environmentally friendly investments.
